

GE-BIOMED

produced by gebiomed
An ISO9001;2008
certified company

U-5

Semi-Automatic
Urine Analyzer >

Main Specification

- Test principle: Photoelectric colorimetric method
- Optional: 10, 11, 12 and 14 parameters
- Test speed: 500 strips/hour
- Wavelength: 470nm, 540nm, 620nm
- Memory Size: 2000 results, can query the test result according to ID
- Display: 320X240 LCD screen
- Port: Can be connected to urine sediment analysis system and hospital management system through RS232 port
- Record mode: Thermal printing
- Environment condition: 15-30°C: RH <70%
- Power supply: AC220V / 110V±15%, 50 / 60Hz
- Power: 50VA
- Weight: 7Kg

Urine Test Strip

- URS-10H Test Items: Urobilinogen, Bilirubin, Ketone, Blood, Protein, Nitrite, Leukocytes, Glucose, Specific Gravity, pH
- URS-11H Test Items: Urobilinogen, Bilirubin, Ketone, Blood, Protein, Nitrite, Leukocytes, Glucose, Specific Gravity, pH, Ascorbic Acid
- URS-12H Test Items: Urobilinogen, Bilirubin, Ketone, Blood, Protein, Nitrite, Leukocytes, Glucose, Specific Gravity, pH, Ascorbic Acid, Microalbumin
- URS-14H Test Items: Urobilinogen, Bilirubin, Ketone, Blood, Protein, Nitrite, Leukocytes, Glucose, Specific Gravity, pH, Ascorbic Acid, Microalbumin, Calcium, Creatinine
